LB 49, 216, 335, 386, 387, 396, 396A, 424

tell us 1 out of 50 billion and we accept it. They say, wait a minute, I didn't put those zeros where they belong, 1 out of 60 billion quintillion, and we say, well, yeah, that seems even more like he probably did it. Then they say, whoops, we made a mistake, 1 out of 30,000. And maybe it was 3,000...1 out of 300. We say, well that's pretty good, too. What I'm trying to get at is this, we don't have anything in this bill that tells us, or at least somebody as unversed in this...

SPEAKER WITHEM: One minute.

SENATOR CHAMBERS: ...subject as I am, what this DNA testing is supposed to do, other than point the finger at somebody as the likely father. Now Senator Brown has discussed DNA, data banking and other things, I don't know that she said she knows a great deal about it, so that's why I'm not interrogating.... Oh, she knows. So the next time my light comes on, there are some things that I would like to ask her then. But I'm not going to start now, Senator Brown, 'cause I don't think I have enough time.

SPEAKER WITHEM: Thank you, Senator. I'd like to announce that we have 40 fourth grade students from J. Sterling Morton Elementary School in Omaha, along with their teachers (introduced teachers). Excuse me, if you'd stand and be recognized. Mr. Clerk, do you have items for the record?

CLERK: Mr. President, I do. Enrollment and Review reports LB 864A as correctly engrossed. I have a General Affairs confirmation hearing report. And bills read on Final Reading have been presented to the Governor, Mr. President. (Re: LB 49, LB 886, LB 335, LB 396, LB 396A, LB 424, LB 523, LB 523A, LB 608, LB 624, LB 658, LB 727, LB 216, LB 386, and LB 387.) That's all that I have. (See pages 2460-61 of the Legislative Journal.)

SPEAKER WITHEM: Thank you. Senator Chambers.

SENATOR CHAMBERS: I move that we recess until one-thirty.

SPEAKER WITHEM: You've heard the motion. All in favor say aye. Opposed. We are in recess.
